

sr. developer and designer roles and responsibilities (on-site only)

Overview

As a Senior Developer & Designer at Leap, you will play a crucial role in the development and design of cutting-edge digital solutions for our clients. You will be responsible for leading projects from concept to completion, ensuring that the final product not only meets but exceeds client expectations. This role requires a blend of technical expertise, creative vision, and a deep understanding of user experience.

Typical Activities

- Collaborate with designers and lead the development of websites, apps, and digital platforms for a variety of clients across different industries.
- Collaborate with clients and internal teams to define project requirements and deliver innovative solutions.
- Create responsive, user-friendly designs that are both visually appealing and functionally robust.
- Write clean, efficient code and ensure best practices in development are followed.
- Troubleshoot and optimize projects for performance and scalability.
- Stay current with the latest trends in web design, development, and technology.
- Work closely with fellow developers and designers to cultivate a collaborative and innovative team culture.

Required Skills

- Extensive experience as a full-stack developer and designer, preferably within a design agency or similar environment.
- Proficiency in HTML, CSS, JavaScript, and modern web development frameworks (e.g., React, Angular, Vue.js, Laravel and ASP.NET).
- Strong visual skills with a portfolio showcasing your ability to create visually stunning and user-centric designs.
- Experience with server-side technologies (e.g., Node.js, Python, Ruby, PHP), database management (e.g., MySQL, SQL, PostgreSQL) and web server configurations.
- Knowledge of SEO best practices and the ability to implement them in web development projects.
- Experience working with content management systems (e.g. Wordpress, Django, Drupal, Joomla) and e-commerce platforms (e.g., WooCommerce, Shopify, Adobe Commerce) and marketing platforms (e.g., Hubspot, MailChimp, Brevo).
- Excellent problem-solving abilities and a keen eye for detail.
- Strong communication skills, with the ability to articulate design and technical decisions to clients and team members.
- Ability to manage multiple projects and meet deadlines in a fast-paced environment.
